

Easter Egg Hunt!

Five friends decided to have an Easter Egg Hunt. They knew that the eggs were hidden around the house but what they didn't know was that there were FIVE bunnies hiding the eggs and each one had hidden a different number of eggs. They had carried the eggs in five different containers. Can you use the clues to work out: the age of each friend, the number of eggs they found, which bunny hid the eggs they found, and the room and container that they found them in?

CLUES

1. Lisa didn't find Miffy's eggs.
2. Sue found Topsy's eggs but not in the bathroom.
3. The eggs hidden in the kitchen were found by the 8 year old friend.
4. The 9 year old friend found eggs in a library bag.
5. Lisa is 10 years old.
6. The oldest friend found only one egg in the study.
7. Mark found Mopsy's eggs, and he is the oldest friend.
8. Tim didn't find eggs in the living room or the study, but he found eggs in a lunchbox.
9. The friend who found eggs in a basket was older than Brad but younger than Mark.
10. Tim did not find Miffy's eggs.
11. Brad is older than Tim but younger than Lisa.
12. Cottontail hid 5 eggs, but not in a pencil case or a library bag.
13. The 8 year old friend found 2 eggs in a shoebox.
14. Brad, who is 9 years old, found 3 eggs.
15. Four eggs were found in the bathroom.
16. Tim is 2 years younger than Brad.
17. Lisa found the most eggs in the living room.

FRIEND	AGE	# OF EGGS	BUNNY	ROOM	CONTAINER
Brad					
Sue					
Lisa					
Mark
